## What's New in 2026?

**First of all... May 2026 prove to be a year of promise for all of you. May you discover new opportunities, new stories, and new friends in the coming weeks and months.**

**BOOK NEWS**—*Miles of Memories – An Unforgettable Road Trip* follows a grieving widower facing early-onset dementia and the family and friends who refuse to let him disappear quietly. When a sixty-year-old motor coach becomes the vessel for a cross-country return home, elders and children alike discover that memory is less about what is retained than what is shared.

Mike hopes to announce more news in the coming weeks.
